HEADTEACHER UPDATE

I hope that you have all had a good week. It has been a good week in school and I have seen some great learning from the children in all of the year groups. There was also great excitement this week as the robot came in to mark the field in preparation for Sports Day so there was a lot of running happening at play and lunchtimes. The digging area is also very popular as are the Teletubby mounds which will be having a full makeover during the Summer holidays thanks to POPS and the very generous funding for this project.

We are very much looking forward to welcoming you to our Parley Pentathlon on Friday next week. The lines have been painted now, although it seems to have rained ever since we put them down! We would like to invite you to bring your own picnics and come and have lunch on the field with your children starting at 12:00 for an hour. Then stay and watch the children take part in a range of sporting events in the afternoons in their year groups. I will send a separate letter to show you a plan of the field and where each year group will be so you can plan where to sit and watch next week. Obviously I have many sleepless nights leading up to this event mainly due to the fact that the British weather is so unpredictable. I am sure you do understand, although will be disappointed, but I may have to cancel at relatively short notice if it is wet due to Health and Safety reasons. Let's hope it is a lovely sunny day!

Unfortunately, the skier on the KS2 playground is broken at the moment and in order to save a significant amount of money I need to wait again until the Summer holidays for the equipment to be serviced and that piece to be fixed. Please ensure that children are not playing on this equipment at the end of the day. Thank you very much.

Children's Commissioner for England survey

*"I have been asked to forward this to you as parents to either do with your children or for our older children to do themselves. It is from the Children's Commissioner for England:
I want to make sure that I hear from as many children as possible, aged 0-18, from all backgrounds, in all schools and colleges, and in every part of the country. To do that, I need your help. I am asking children about the changes they want to see in their communities, their biggest concerns, and their hopes for the future. More than anything, I want to know what they think a good childhood should look like today. I am asking you to share the survey with all the children, parents and carers in your school or college community. Schools and colleges that achieve high participation rates will receive formal recognition for their contribution to amplifying children's voices and encouraging civic engagement, and a summary of their pupils' response".*
