Year 1 - A journey through time

Science

We will be learning to name and label the different parts of the human body. We will also learn about our senses and how we use these to make observations when working as scientists.

Key Vocabulary:

observe	Look closely at something
data	True information to answer a question
skeleton	The bones inside a body
senses	How a human gets information about the world around them

sight

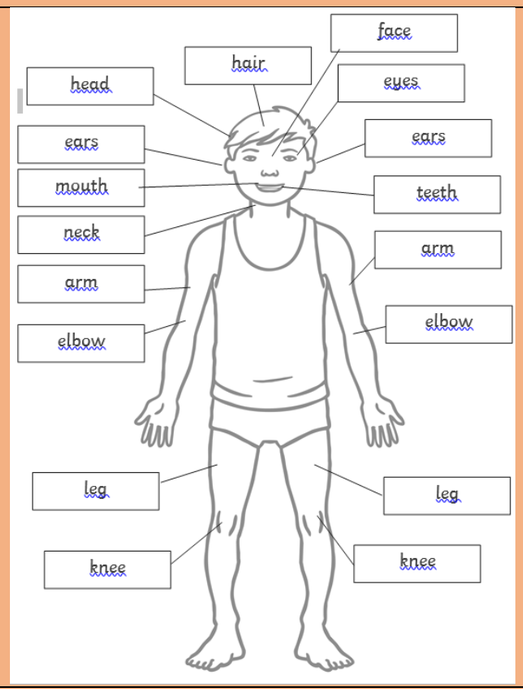

hearing

smell

touch

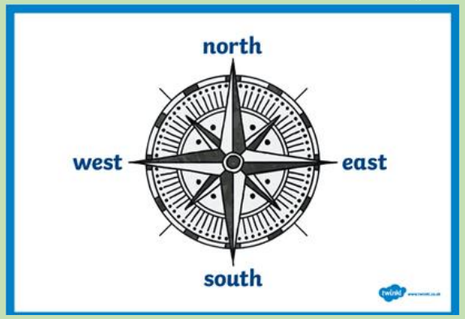

taste

skeleton

Geography

We will be learning about how maps are used to show real places. We will also learn the four main compass points and how these are used to give accurate directions.

Science & Geography

We will be learning about the four seasons and how the world around us changes each season. We will discuss the different types of weather and the changes in nature.

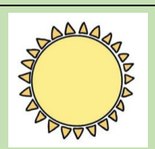

Key Vocabulary:

season	A time of the year when the weather follows a certain pattern.
weather	A description of what the conditions are like in a particular place at a particular time.

autumn

foggy

rainy

sunny

cloudy

winter

frosty

windy

History

We will be learning about the famous fossil hunter, this is called a palaeontologist. Mary Anning was one of the first female scientists to be recognised for her discoveries. She was also the first person to discover an Ichthyosaur. She is a very significant person in our local area as she was born in Lyme Regis.

Art

We will be learning about the famous artist William Morris who lived during the Victorian era. William Morris is very famous for his wallpaper designs. He created beautiful designs using repeated patterns made by block printing. He was very keen to look after the environment so all his designs were based on nature. His designs reminded people who lived in busy cities of the beautiful countryside.
