Year 1, Spring 1

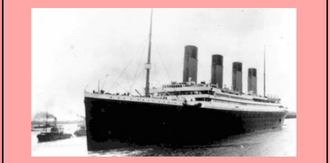

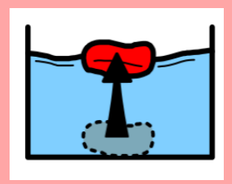

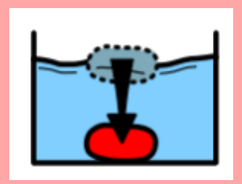

Titanic

History

We will be learning all about the ship The Titanic and it's significance today. We will focus on recalling key facts about the Titanic, including why it was a special ship at the time, where it set sail from, the journey it intended to take and the different experiences 1st class and 3rd class passenger had. We will also learn about why it sank, the consequences of it sinking and how that has changed transport in the present.

Key Vocabulary:

 Titanic	 Ship	 Unsinkable	 Sink
  Class (1st class, 2nd class)	Rich—Having a great deal of money Poor—Having little money	Evidence - collection of facts or information that suggests whether something is true or false.	Sail—a journey taken on a ship

Science

We will be learning to make simple predictions about what might happen, as well as carrying out simple tests and recording data to determine if our predictions were correct. We will be looking at what objects we think will float or sink and why.

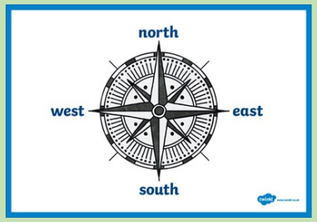

Key Vocabulary:

Predict	A statement that might happen or is expected to happen
Observe	Look closely at something
Data	True information to answer a question
Record	Draw or write our results
Fair test	Keeping everything the same but changing one thing

 Float	 Sink
 Light	 Heavy

Geography

We will be learning about how maps of the world show where countries are in relation to each other and be able to locate the UK and America on a map. We will build upon our understanding of using compass points to give accurate directions.

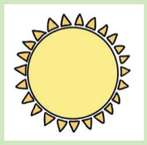

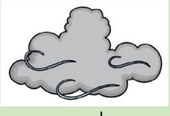

Science & Geography

We will be learning to collect data and make observations about the changes in weather we will experience through Winter and Spring. We will be keeping a weather diary and record the changes in day length, temperature and rainfall.

season	A time of the year when the weather follows a certain pattern.
weather	A description of what the conditions are like in a particular place at a particular time.

 winter	 foggy	 rainy	 sunny
 cloudy	 spring	 frosty	 windy

DT

We will be learning to design and make a replica of the titanic in the style of a diorama to educate others within the school about the different experiences passengers had depending on what class they were. We will draw to share our design ideas, choose the tools and materials that are most suitable for our diorama, and accurately measure and cut different shapes to represent different parts of the Titanic.

Dioramas	Physical boxes built to show a scene
